

Welcome Speech (2 Minutes)

Good morning Everyone!

Respected Principal Sir, Honourable Faculty, and my dear friends,

On behalf of all the Second-Year BCA students, I warmly welcome our First-Year BCA students to our college family.

First of all, congratulations to each one of you for starting this new chapter of your life. College life is one of the most memorable journeys. Here, you will not only gain knowledge but also make new friends, learn new skills, build confidence, and create unforgettable memories.

Some of you may be feeling excited, and some may be a little nervous. Don't worry—we were in the same position last year. Very soon, this campus will feel like your second home.

As your seniors, we are always here to help and support you. Never hesitate to ask us if you need any guidance, whether it is related to studies, projects, or college activities.

Make the most of every opportunity. Participate in technical events, cultural programs, sports, and other activities. These experiences will help you grow both personally and professionally.

Once again, welcome to the BCA family. We wish you a successful, joyful, and memorable college life.

Now, let's celebrate this special day together and enjoy the Fresher Party.

Thank you, and have a wonderful day!
